

Credit Meters

MHC-1f Single Phase Credit Meter

MID APPROVAL NUMBER: 0120/SGS0280

A single phase electronic credit meter with LCD readout. It has a maximum current rating of 100A. The case seal is out of sight to avoid being tampered with and the extended terminal cover prevents access to the cables. The meter comes with a three year guarantee and can be used in applications such as billing electricity usage, monitoring energy consumption, Solar PV total generation metering, etc.

- All solid state with 8 character LCD.
- Single tariff rate.
- Reverse energy detection.
- For increased security RDL has designed the meter to have no visible seals.
- An extension terminal cover has been designed to cover the incoming supply cables.
- No battery replacement required.
- Ingress protection IP51.
- The MHC-1f comes with a three year guarantee.
- Supplied with user manual.

Dimensions: H120mm x W125mm x D54mm
 Weight: 1.821kg

Support British manufacturing and buy RDL meters

RDL has always endeavoured to keep the green efficiency code where possible. RDL do use certain recycled components within the accepted MID approval. In no way will this reduce the quality of RDL manufactured meters or your guarantee. The word "NEW" is dedicated to the shape and unique design of the meters now and in the future.
